

In the Spring of 2020, we extended our lineup of center console boats with the 31T Aventura. At 31 feet, 7 inches long, it comes with a load of standard features for comfort and functionality.

The center console's D-Leg Hard Top includes spreader lights, a three-sided windshield, fishing rod holders and stereo speaker pods. We've equipped this model with a premium audio system that's Bluetooth and SiriusXM capable. The freshwater pressurized system includes a sink and transom shower. On top of that, we provide U-shaped lounge seating with in-deck storage and a table.

For your fishing activities, each of our 31T Aventura center console fishing boats has a bait prep station with locking tackle storage and a cutting board. You can take advantage of the insulated overboard draining fish boxes and raw-water wash down system. All of these features make this fishing yacht one of the best center console sport fishing boats on the market.

31T AVENTURA
